

FABREEKA-TIM[®]

STRUCTURAL THERMAL BREAK

BOOSTS ENERGY EFFICIENCY

Fabreeka-TIM[®] is a structural thermal break/insulation material that prevents thermal bridging in structural connections.

TRUSTED BY PROFESSIONALS

Fabreeka-TIM[®] is specified by building professionals across the USA and Canada for its superior performance diverse applications.

MAINTAINS STRUCTURAL INTEGRITY

Fabreeka-TIM[®] maintains the structural integrity of your connections while reducing heat flow and energy loss, ensuring the long-term stability and efficiency of your building.

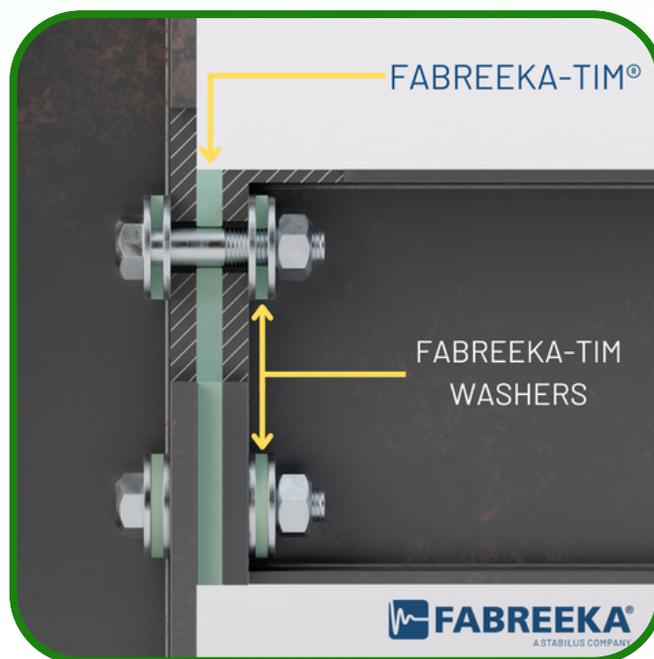

MADE IN THE USA

Rest assured that Fabreeka-TIM[®] is manufactured in the USA, ensuring top quality, performance, and compliance with ASTM and UL certifications.

FAST TURNAROUND TIMES

We have a stock of Fabreeka-TIM[®] in various thicknesses, including 1/4", 1/2", 3/4", 1", and 2", ensuring quick turnaround times for your building projects.

CUSTOMIZABLE AND PRECISE

We offer precision water jet cutting for custom shapes and sizes, making it easy to integrate Fabreeka-TIM[®] into your unique building designs.

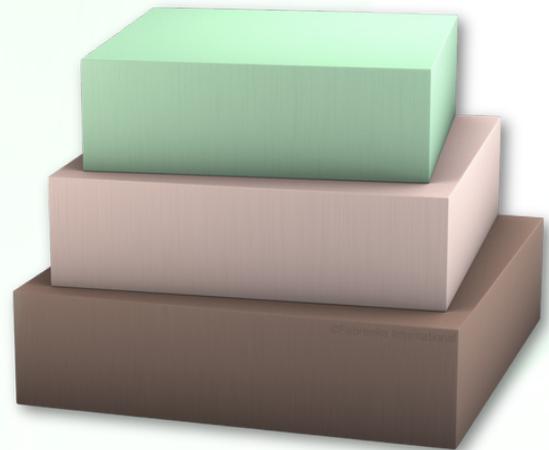

ADDITIONAL THERMAL BREAK SOLUTIONS

FABREEKA-TIM RF SERIES

IDEAL FOR:

- COLUMN BASE INSULATION
- COLD STORAGE
- NON-MOMENT CONNECTIONS

RESISTANT TO HARSH CONDITIONS

Fabreeka-TIM® RF Series is impermeable to liquids, including water and solvents, making it perfect for harsh environments, severe weather conditions.

FABREEKA-TIM LT15

IDEAL FOR:

- LIGHT LOAD APPLICATIONS
- REDUCING CORROSION
- FACADE SUPPORT BRACKETS
- METAL BUILDING FRAMING

STRONG AND DURABLE

With Fabreeka-TIM LT15, you get a lightweight, yet durable solution for lighter load applications while still resisting load stress over time.
